

FEBS 2021
THE 45TH FEBS CONGRESS
3-8 JULY 2021
LJUBLJANA SLOVENIA

FEBS 2021 Poster Session Program by Topic

Poster session 1: Sunday, July 4, 2021 (13:00 – 14:30)

- 1.1 Genome structure and regulation
- 1.2 RNA function
- 1.3 Molecular evolution and phylogenetics
- 1.4 Epigenetics
- 2.1 Protein biosynthesis and expansion of genetic code
- 2.2 Autophagy and protein recycling
- 2.3 Proteolytic processing
- 2.4 Protein folding and misfolding
- 2.5 Protein localization and dynamics
- E-01,02 Education, training, and career planning

Poster session 2: Monday, July 5, 2021 (13:00 – 14:30)

- 3.1 Neurobiochemistry
- 3.2 Receptor–ligand interactions
- 3.3 Membranes
- 4.1 New approaches in structure determination
- 4.2 Molecular machines
- 4.3 Imaging for life: From molecules to organisms
- 4.4 Structures of nucleic acids
- 5.1 Metabolic engineering
- 5.2 Bionanotechnology
- 5.3 Designed regulatory circuits and genome editing
- 5.4 Plant biotechnology

Poster session 3: Tuesday, July 6, 2021 (13:00 – 14:30)

- 6.1 Immunotherapy
- 6.2 New frontiers in medicinal chemistry
- 6.3 Pharmacogenomics and biomarkers
- 6.4 Stem cells and regenerative medicine
- 6.5 Bioinformatics and computational biology
- 7.1 Biochemistry of toxins
- 7.2 Mechanisms of microbiome–host interactions
- 7.3 Cellular organization
- 7.4 Molecular interactions of plants with the environment
- 7.5 Life on the edge -extremophilic/ extremotolerant organisms

Poster session 4: Wednesday, July 7, 2021 (12:30 – 14:00)

- 8.1 Cancer immunology and immunotherapy
- 8.2 Cancer initiation and progression
- 8.3 Immune and inflammatory disorders
- 8.4 Ageing stress and neurodegeneration
- 8.5 Redox biology - oxidative stress signalling
- 8.6 The circadian clock and disease
- 9.1 Structural and functional glycobiology
- 9.2 Bioactive lipid mediators
- 9.3 Lipidomics
